# Convection Oven EC01-F Steam and Grill

## Product codes:

Reference: 1717

EAN13: -

UPC: -

## Product description:

- Capacity to bake, cook, defrost, and reheat food and dishes.
- Suitable for various uses, from pizzas to cuts of meat. Also allows for vacuum cooking at low temperatures.
- Made of stainless steel with a double-glass door that opens to the side.
- Tempered double-layer glass that allows observation of the cooking status of the food.
- Built-in lighting resistant to high temperatures.
- Controls located at the base to prevent damage from steam exit.
- Adjustable temperature regulator from 50 to 350°C with safety thermostat.
- Acoustic timer from 0 to 120 minutes.
- Equipped with 4 trays measuring 440x318 mm and a rotating lower tray.
- Even cooking thanks to U-shaped heating elements and a fan.
- Steam function and grill function available.
- The steam function is performed with a 3/4" water connection at the back of the oven. It lacks a water tank, and steam injection is done manually with a button on the front.
- Distance between guides is 70 mm.
- Weight: 85 kg.
