

8kg +14 Liters Dough Mixer for Churros

Product codes:

Reference: 4126

EAN13: -

UPC: -

Product description:

- Constructed with 2 mm thick 304 stainless steel sheet.
 - Reinforced with steel tubing in the column of the mixing arms.
 - Features a 10 mm thick stainless steel rotating plate.
 - Equipped with protection against voltage fluctuations.
 - Includes a safety grid with auto-locking feature.
 - Has an emergency stop button.
 - Wheels with anti-vibration system. Has CE certification.
 - Equipped with two 0.50 HP motors each at 400V.
 - Includes a 1 HP speed variator.
 - Has a safety switch that prevents operation after a power interruption without manual reactivation by the user.
 - Both the bowl and the mixing arms are completely detachable for easy cleaning.
-

-
- The bowl capacity is 8 kg + 14 liters.
 - The installed motors rotate in the opposite direction, which multiplies the mixing force of the dough, achieving optimal product preparation.

Product features:
