# Extraction box LKZ 10/10-4M 1/2M

## Product codes:

Reference: 9045C

EAN13: -

UPC: -

## Product description:

### Material and Design

- Structure made of **galvanized steel** with anticorrosive treatment.
- Turbine with blades facing forward, also made of galvanized steel.
- Includes **blind cover**.
- Resistant finish for demanding environments.
- **Electrical connection via connection plug.**

---

### Technical Specifications

- **Motor:** High efficiency (HE), compliance with ErP 2015 standards.
  - **Type of motor:** Closed, with built-in thermal protector, class F, ball bearings.
  - **Protection:** IP54.
  - **Speed:** 1250 rpm (1 speed).
-

- 
- **Voltage:** Single-phase 220-240 V AC – 50 Hz.
  - **Power:** 450 W.
  - **Air flow:** 2800 m<sup>3</sup>/h.
  - **Sound level:** 65 dB.
  - **Air temperature to be transported:** -20 °C to +60 °C.
  - **Capacitor:** 20 µF.

---

### Included Supplies

- Extraction box with mounted turbine.
- Blind cover.
- Electrical connection plug.

---

### Additional Features

- Easy installation and maintenance.
- Ideal for general ventilation applications or localized extraction.
- Designed for a long service life in demanding conditions.

### Product features:

Power Supply Voltage: 220-240V 50Hz  
Power Watts: 450W  
Hospitality Furniture: Bells Accessories  
Bells Accessories: Extraction Box

### Product short description:

---

Compact and efficient extraction box, designed for ventilation systems that require high performance and quiet operation. Ideal for commercial or industrial installations where continuous air extraction is required.
