

TK-42 Stainless Steel Meat Grinder

Product codes:

Reference: 1410

EAN13: -

UPC: -

Product description:

Industrial Grinder with Stainless Steel Auger and Nut

-

Material and Design: Entirely made of stainless steel with a polished structure, ensuring durability and strict compliance with hygiene standards. Its helical spiral design prevents clogs, ensuring smooth and efficient operation.

-

Motor and Safety System: Equipped with a 4000W motor, fan, and precision gear unit, it includes overload protection to ensure safe and prolonged performance.

-

Included Equipment:

- 1 auger.
 - 2 Enterprise blades size 42.
 - 1 plate with pivot and 6 mm drill.
-

- 1 plate with pivot and 8 mm drill.
- 1 pusher stick.

•

Technical Specifications:

- **Grinding Capacity:** From 650 kg/hour up to 800 kg/hour.
- **Mouth Diameter:** 42 inches.
- **Speed:** 175/210 rpm.
- **Voltage:** 380V-50Hz.
- **Emergency Stop Switch:** Protection device.
- **Measurements with Packaging:** 1000 x 680 x 1030 mm.
- **Measurements without Packaging:** 600 x 930 x 880 mm.
- **Weight:** 116 kg.

•

Additional Features:

- Internal operation designed for low noise level.
- Mouth closure with lever for greater convenience.
- Comes with 4 wheels for ease of handling and stability.
- Does not include schuko.
- CE certification.

This industrial grinder is the ideal solution for large volumes, combining power, safety, and ease of use.

Product features:

Power Supply Voltage: 380-400V 50Hz

Power Watts: 4000W

Measure: 600x930x880mm

Prepared-Cut-Chopped: Grinders

Product short description:

This high-performance industrial grinder is made of stainless steel, ensuring durability and compliance with hygienic standards. With a grinding capacity of 650 kg/h and a 4000W motor, it offers a safe, efficient, and easy-to-use design. Ideal for professional applications requiring power, precision, and robustness.
