

Extraction box LKZ 9/9-4M 1/2M

Product codes:

Reference: 9041C

EAN13: -

UPC: -

Product description:

Material and Design

- Structure made of **galvanized steel sheet** with anti-corrosion treatment.
- Turbine with forward-curved blades in galvanized steel sheet.
- Includes blind cover.
- Electrical connection via splice connector.
- Robust and compact design with materials resistant to corrosion.

Technical Specifications

- **Motor:** High efficiency (HE), compliant with ErP 2015 regulations.
 - **Motor type:** Closed, with built-in thermal protector, class F, with ball bearings.
 - **Protection:** IP54.
 - **Speed:** 1250 rpm (1 speed).
 - **Voltage:** Single-phase 220-240 V AC – 50 Hz.
 - **Power:** 370 W.
 - **Air flow:** 2800 m³/h.
 - **Sound level:** 70 dB.
 - **Temperature of the air to be transported:** -20 °C to +60 °C.
 - **Condenser:** 20 °F.
-
-

Included Equipment

- Extraction box with pre-mounted turbine.
- Blind cover.
- Electrical connection connector.

Additional Features

- Quiet and efficient operation.
- Ideal for centralized ventilation systems or localized extraction areas.
- Long-lasting components designed for industrial environments.

Product features:

Power Supply Voltage: 220-240V 50Hz

Power Watts: 370W

Hospitality Furniture: Bells Accessories

Bells Accessories: Extraction Box

Product short description:

High-performance extraction box designed for industrial and commercial ventilation systems. It offers excellent airflow capacity with low maintenance, ideal for demanding applications where reliability and energy efficiency are required.
