

# Extraction Box LKZ 9/9-4M 3/4M

## Product codes:

Reference: 9042C

EAN13: -

UPC: -

## Product description:

### Material and Design

- Structure made of **galvanized steel sheet** with anti-corrosion treatment.
- Turbine with forward-curved blades in galvanized steel sheet.
- Includes blank cover.
- Electrical connection via splice connector.
- Robust and compact design with corrosion-resistant materials.

---

---

## Technical Specifications

- **Motor:** High efficiency (HE), compliant with ErP 2015 standard.
  - **Motor type:** Closed, with built-in thermal protector, class F, with ball bearings.
  - **Protection:** IP54.
  - **Speed:** 1250 rpm (1 speed).
  - **Voltage:** Single-phase 220-240 V AC – 50 Hz.
  - **Power:** 550 W.
  - **Airflow:** 3600 m<sup>3</sup>/h.
  - **Sound level:** 65 dB.
  - **Air temperature to be transported:** -20 °C to +60 °C.
  - **Condenser:** 20 °F.
- 
-

---

### Included Equipment

- Extraction box with pre-assembled turbine.
- Blank cover.
- Electrical connection connector.

---

### Additional Features

- Quiet and efficient operation.
- Ideal for centralized ventilation systems or localized extraction areas.
- Long-lasting components designed for industrial environments.

### Product features:

Power Supply Voltage: 220-240V 50Hz

Power Watts: 550W

Hospitality Furniture: Bells Accessories

Bells Accessories: Extraction Box

### Product short description:

---

---

High-performance extraction box designed for industrial and commercial ventilation systems. It offers excellent airflow capacity with low maintenance, ideal for demanding applications where reliability and energy efficiency are required.
