

Gas tilting pan 65 liters Series 700 GP722

Product codes:

Reference: 7034A

EAN13: -

UPC: -

Product description:

Material and Design

- Body, panels, and pan completely made of **stainless steel**.
- Pan bottom reinforced with **8 mm special stainless steel plate** for greater thermal resistance.
- **Manual tilting mechanism** for ergonomic emptying.
- **Top filling tap** that facilitates direct water filling into the pan.
- Compact and functional design of **800 x 700 x 900 mm**, ideal for industrial kitchens.

Included Equipment

- Top water filling tap.
-

-
- Ignition system with pilot light, thermocouple, and safety thermostat.
 - Valves adapted for use with **Natural Gas or LPG**.
 - Supplied pre-set for natural gas.

Technical Specifications

- **Model:** GP722
- **Code:** 7034A
- **Energy type:** Natural Gas / LPG
- **Total power:** 8.1 kW
- **Auxiliary voltage:** 380 V / 3F – 50 Hz
- **Capacity:** 65 liters
- **External dimensions (mm):** 800 x 700 x 900
- **Net weight:** 139 kg
- **Gross weight:** 150 kg
- **Ignition:** with pilot and safety system
- **Tilt:** manual

Additional Features

- The burner shuts off automatically if the flame goes out.
 - When the pan is lifted, the system automatically switches to **pilot** mode, providing greater safety of use.
 - Ideal element for **industrial kitchens, collective dining rooms, and food production centers**.
-

Product features:

Type: Con mueble

Measure:

Heat: Tilt Skillet

Gas-Electric-Induction-Oil: Gas

Product short description:

The gas tilting pan model **GP722** is designed to offer maximum efficiency and safety in professional kitchens. With a capacity of **65 liters**, its robust stainless steel structure ensures durability and ease of cleaning. Ideal for high-volume cooking, its manual tilting mechanism allows comfortable and safe emptying.
