Product description:

WD-40 Specialist White Lithium Grease 400ml 34111

NSF H2 Certification, suitable for environments that require high hygiene standards.
Long-term lubrication, providing durable protection even in extreme conditions.
Non-drip: effectively adheres to surfaces, preventing waste.
Operates under high pressure, ideal for demanding industrial applications.
Reduces friction and wear, ensuring smoother performance of parts.
Resistant to water and heat, perfect for outdoor use or adverse weather conditions.

Uses and applications

Lubrication of mechanisms and gears to maintain their proper functioning.
Smooths the operation of bearings, winches, and conveyor belts, improving operational efficiency.
Lubrication of pistons, rails, and slides, ensuring smoother operation.
Protection and lubrication of cables and chains, extending their lifespan.
Maintenance of hinges and latches, preventing wear and oxidation.
Protection of gardening tools against rust and wear, ideal for keeping them in good condition.

Product features:

Application: Universal
Cleaner Grease Oil: White Lithium Grease
Container of:: 400ml
