The advertisement features a vibrant background of fresh fruit, including a large red apple in the foreground, a sliced pineapple, and green apples. A large, professional-grade peeling knife with a black handle and a silver blade is prominently displayed in the center. To the right, five smaller knives are shown vertically, each with its length in centimeters labeled next to it. The EUTRON logo, featuring a Greek letter sigma (Σ) inside a circle, is positioned at the top left. The text 'Cuchilleria Profesional Serie Forjado' is written in a stylized font below the logo. The phrase 'Forjado Pelador 9 cm de alta calidad' is written vertically on the left side of the image.

Product description:

Small-sized knife specially designed for peeling vegetables, fruits, tubers, etc. with precision and ease.

It can be used for **shaping, peeling, and chopping**.

Lightweight and robust peeling knife thanks to its **single-piece ferrule connecting the blade and handle**.

Knife with a **full tang blade made of forged steel** (Molybdenum-vanadium) with a **black POM handle** suitable for dishwashers.

Tempered and finished blade for greater cutting durability and better balance and compensation between the blade and the handle.

The **blade** has a length of **9 cm (90 mm)**.

Features:

- Blade made of forged Molybdenum-vanadium steel
- POM (polyoxymethylene) handle
- Dishwasher safe.
- Ergonomic design for comfortable cutting.
- Maximum hygiene.

Product features:

Accessories: Cuchillos

Product short description:

Paring knife for peeling, shaping, and chopping
