Product description:

CO2 Meter with Alarm

Air Quality Meter, Humidity, and Temperature (°C/°F)

Monitor the amount of carbon dioxide (CO2) in real-time, expressed in PPM, with an infrared CO2 sensor (NDIR).

High CO2 Concentration Alert: when the air quality has a carbon dioxide concentration above 1000 PPM, it will emit a warning beep.

Recommended for use both indoors and outdoors, especially in areas with high concentrations of people (schools, offices, businesses...).

Portable detector as it has an internal 2200mAh battery with up to 24 hours of autonomy and charges via MicroUSB.
