

Ozone Generator 200W OZO-30G

Product codes:

Reference: 1798

EAN13: -

UPC: -

Product description:

- It is an electrical device that generates ozone from ambient air, which is suitable for eliminating odors, bacteria, viruses, and fungi.
- Compact equipment, convenient and easy to transport.
- Generates a very high amount of ozone.
- Do not stay in the treatment area beyond startup and deactivation. After 30 minutes of completing the treatment, the ozone decomposes into oxygen.
- Coverage: 450-550m³/h
