

Stainless Steel Bone Saw - Aluminum HLS-800

Product codes:

Reference: 1326

EAN13: -

UPC: -

Product description:

Main Features:

- **Construction Material:** Aluminum and stainless steel for durability and easy cleaning.
 - **Wide Working Area:** 380 x 365 mm, allowing for the handling of large pieces.
 - **Cutting Height of 220 mm:** Ideal for cutting bones and meat of various sizes.
 - **Cutting Speed of 15 m/s:** Provides clean and fast cuts.
 - **210 mm Pulleys:** Pulley system designed for smooth and efficient operation.
 - **1650 mm Blade:** Ensures precise cuts with thickness adjustments between 4 and 250 mm.
-

Technical Specifications:

- Voltage: 220-240V AC.
- Power: 950 W.
- Dimensions: 870 x 455 x 465 mm.
- Weight: 43 kg.

Advantages:

- **Precision and Power:** 950 W motor for quick and accurate cutting.
- **Versatility:** Cutting adjustment between 4-250 mm for different needs.
- **Durability:** Wear and corrosion-resistant materials.
- **Easy Maintenance:** Smooth and accessible surfaces for quick cleaning.

Product features:

Weight: 43 Kg
Power Supply Voltage: 220-240V 50Hz
Power Watts: 950W
Measure: 870x455x465mm
Prepared-Cut-Chopped: Saws

Product short description:

The HLS-800 bone saw offers precise and efficient cutting, combining durability and safety. Its aluminum and stainless steel structure ensures resistance to intensive use, perfect for professional applications.
