

Automatic Stainless Steel Orange Juicer SUCCO

Product codes:

Reference: 1772S

EAN13: -

UPC: -

Product description:

Juicer for making completely automatic juices

Simply place the oranges in the basket, without cutting or peeling them.

Waste is deposited in the bins on both sides.

It accommodates oranges with a diameter of 40-80 mm with an output of 20 oranges per minute.

Versatility and functionality come together in this juicer that avoids acidity by not crushing the peel, preventing the juice from coming into contact with the peel.

- Stainless steel bins.
 - Metal gears.
 - Easy access gearbox for repairs.
 - Metal circles to protect the shafts.
 - Safety switch.
