

HBS-220A Aluminum Silver Slicer

Product codes:

Reference: 1301

EAN13: -

UPC: -

Product description:

• Main Features:

Quality Structure:

- Base made of pressure-cast aluminum and magnesium alloy with a painted body, providing robustness and ease of cleaning.
- All parts in contact with food are anodized, ensuring impeccable hygiene.

Efficient Cutting System:

- Belt drive that guarantees smooth and precise cuts.
- High-strength C45 steel blade, ideal for consistent and durable cuts.
- Not suitable for cutting cheese, recommended exclusively for cold cuts.

Safety System:

- 24V electric controls for safe operation.
- Emergency stop button to prevent accidental starts.

Integrated Sharpener:

- Includes a standard sharpener with fine and coarse stones, keeping the blade always sharp and ready for use.

Technical Specifications:

-
- **Model:** HBS-220A
 - **Blade Diameter:** 220 mm
 - **Power:** 120W
 - **Power Supply:** 220V-50Hz
 - **Cut Thickness:** Adjustable between 0 and 12 mm
 - **Maximum Cutting Space:** 130 mm
 - **Dimensions:** 498 x 435 x 380 mm
 - **Weight:** 17 kg
-

Certification:

Complies with CE regulations, ensuring quality, safety, and conformity with European standards.

Product features:

Prepared-Cut-Chopped: Deli Slicer

Product short description:

Gravity feed slicer with belt drive, designed for precise cuts in cold cuts. Made of anodized aluminum and magnesium alloy, it guarantees durability, resistance, and easy cleaning. Includes a standard sharpener and allows for adjustable cut thickness between 0 and 12 mm. *Note: Not suitable for cutting cheese.*
