

Refrigerated counter front glass doors

FBR-150-V

Product codes:

Reference: 1028

EAN13: -

UPC: -

Product description:

- Preparation and work table specially adapted for quick service or as a conservation element integrated into the bar. This range covers multiple areas of activity.
- Reliability guaranteed by the use of high-quality components, low-consumption compressors, and the optimization of electronic control parameters tested in our laboratories.
- The height of 1045mm makes the counter front the ideal element to combine with our coffee tables and shelving tables.
- We provide all the elements to facilitate the cleaning of our devices: replaceable gasket, removable supports, sanitary recessed bottom, curved joints, drain that allows the evacuation of waste liquids.
- Dimensions 1492x600x1050mm
- Compressor 1/4
- Power 488W
- Capacity 404 Liters
- Doors 2
- Model FBR-150-V
