

Machine à hot-dogs 2 broches HDW-2

Codes produits :

Référence 1764

EAN13 : -

CUP : -

Description du produit :

- Acier inoxydable avec 2 barres pour griller le pain.
- Cylindre en verre 200x240mm.
- Régulateur de température de 40 à 100°C.
- Interrupteur d'alimentation.
- Voyant indicateur de fonctionnement.

caractéristiques du produit :

Poids: 10 kg

Tension d'alimentation: 220-240V CA 50-60Hz

Puissance en Watts: 550W

Mesure: 390x290x410mm

Mesure: 390x290x410mm

Chaleur: Creperas

Description brève du produit :

This diagram shows an exploded view of a mechanical assembly. The components are numbered 1 through 25. The assembly includes a base plate (1) with a central circular feature and a 'Bolt' label. A rectangular block (2) is positioned above the base. A cylindrical component (3) is shown to the right. A series of vertical rods (4) are on the left. A set of three vertical rods (5) is at the top left. A rectangular plate (6) is above the base. A cylindrical component (7) is to the right of the base. A series of vertical rods (8) are on the left. A set of three vertical rods (9) is at the top left. A rectangular plate (10) is above the base. A cylindrical component (11) is to the right of the base. A series of vertical rods (12) are on the left. A set of three vertical rods (13) is at the top left. A rectangular plate (14) is above the base. A cylindrical component (15) is to the right of the base. A series of vertical rods (16) are on the left. A set of three vertical rods (17) is at the top left. A rectangular plate (18) is above the base. A cylindrical component (19) is to the right of the base. A series of vertical rods (20) are on the left. A set of three vertical rods (21) is at the top left. A rectangular plate (22) is above the base. A cylindrical component (23) is to the right of the base. A series of vertical rods (24) are on the left. A set of three vertical rods (25) is at the top left.
