

Tabletop Induction Cooker

Product codes:

Reference: 5019

EAN13: -

UPC: -

Product description:

•

Main Features:

- **Cooking Zones:**
 - 1 or 2 independent heating zones with a power of 3.5 kW each.
 - Full useful surface without 'dead' spots, ideal for maximizing space.
- **Precise Control:**
 - Automatic temperature adjustment according to the diameter of the pan.
 - Automatic detection device: heating is only activated with a pan in direct contact and automatically stops when removed.
- **Advanced Safety:**
 - Overheating protection system.
 - Self-regulated control prevents unexpected temperature spikes.
- **Energy Efficiency:**
 - High heat transfer efficiency.
 - Less heat dissipation to the environment, which reduces the temperature in the kitchen.

Technical Specifications:

-
- **Material:** Ceramic glass surface.
 - **Power:** 3.5 kW per zone.
 - **Dimensions:** 400x700x280 mm.
 - **Cooking Diameter:** Ø 160-285 mm.
 - **Weight:** 15 kg.
 - **Power Supply Voltage:** 220V - 50Hz.

CE Certification: Complies with European safety and quality standards.

Product features:

Width: 400mm
Fund: 700mm
Weight: 15 Kg
Power Supply Voltage: 220-240V 50Hz
Power Watts: 3500W
Type: After-dinner conversation
Model:
Measure:
Heat: Kitchens
Gas-Electric-Induction-Oil: Induction
Burner - Stove: 1

Product short description:

Tabletop induction cooker designed to offer maximum efficiency and precision in professional environments, with a durable and easy-to-clean ceramic glass surface.
