

Lacquered Bottle Cooler 2 Doors BGZ-100-EG

Product codes:

Reference: 3054

EAN13: -

UPC: -

Product description:

Material and Design

- **Exterior:** Pre-painted sheet metal in white color, durable and easy to clean.
 - **Interior:** Aluminum lining, ideal for quick cold transfer.
 - **Back:** Galvanized sheet for greater durability.
 - **Dividers:** Plasticized steel to organize bottles.
 - **Doors:** Sliding and opaque, perfect for keeping the cold inside and facilitating access to
-

bottles.

Capacities and Functionalities

- **Capacity: 200 liters**, ideal for storing a large quantity of bottles.
- **Cooling system:** Static, with aluminum evaporator and copper tube.
- **Temperature range:** From **+2°C to +8°C**, adjustable via a digital thermostat for precise control.
- **Condenser:** Vented with steel tube, improving heat dissipation efficiency.
- **Compressor:** Brand **SECOP HMK 80 AA** or similar model, known for its high performance and efficiency.
- **Insulation:** Injected polyurethane free of CFCs with a density of **40 kg/m³**, ensuring excellent maintenance of internal temperature.

Technical Specifications

- **External dimensions:** 1005 x 830 x 550 mm (width x depth x height).
- **Net weight:** 45.8 kg.
- **Power supply voltage:** 220-240V AC / 50Hz.
- **Refrigerant:** **R600a**, eco-friendly and low consumption.
- **Noise level:** 55 dB.

Additional Features

- **Digital controller:** Thermostat with display to monitor and adjust temperature.
- **Illuminated main switch:** Easy to turn on and off, with a visual operating indicator.
- **Type C power outlet:** European standard for a safe and stable connection.
- **Wheels:** Equipped with wheels for easy mobility (if applicable in the standard configuration).

Product Advantages

- **Large capacity:** Allows for easy storage and organization of multiple bottles.
- **High efficiency:** Thanks to the refrigerant gas **R600a** and the ventilated hermetic compressor, it ensures low energy consumption.
- **Precise control:** Digital thermostat for adjusting temperature according to business needs.
- **Durability:** High-quality materials like aluminum and steel ensure prolonged use in high-demand environments.

With the BGZ-100-EG Bottle Cooler, keep your drinks at the ideal temperature and enhance the efficiency of your service. Ideal for bars and restaurants seeking functionality and quality.

Product features:

Power Supply Voltage: 220-240V 50Hz
Capacity Liters: 200 Liters
Refrigerant Gas: R600a Gas Compressor
Temperature Range:
Door: Opaque
Number of doors: 2
Cold: Bottle racks Bottles
Type of Door: Sliding
Controller: Digital
Specials: For Drinks
Cold Hot Neutral: Cooling

Product short description:

The **BGZ-100-EG Bottle Cooler** with **200 liters** is the perfect option to keep your drinks always cold and within reach. Its compact and efficient design is ideal for bars, restaurants, and businesses. Made with durable materials, such as white pre-painted sheet metal on the exterior and aluminum on the interior, it guarantees optimal preservation and a long service life. Its static cooling system with aluminum evaporator and digital thermostat ensures uniform cooling and precise temperature control.
