The diagram illustrates the exploded view of a microwave oven, showing the following components and their assembly sequence:

- Top Components:** High temperature glass plate, Power Cord, and a rubber foot.
- Upper Assembly:** Magnetron's body, which is connected to the High temperature glass plate and the Power Cord.
- Rotating Mechanism:** Includes the Wave Cook, a central shaft, and a Rubber foot.
- Lower Assembly:** Consists of the Base frame, which houses the Electric Board and the Bottom Plate.
- Final Assembly:** The entire unit is completed with the Final assembly step, which includes the Rubber foot.
